

School of Accountancy
ELECTIVE COURSE LIST
ALL INFORMATION IS SUBJECT TO CHANGE

PLEASE READ—IMPORTANT INFORMATION

- Below is a list of many of the classes taught by the Marriott School that may be considered to satisfy elective requirements in the graduate programs. There may be other classes which are not listed here. Not all classes are offered in all semesters. **This list is subject to change.**
 - If classes have the same name, even if their numbers are different, both may not be taken to satisfy program requirements (this is considered a repeat of the same class).
 - The same class may not be used to fulfill two separate requirements.
 - Courses outside of the Marriott School may be considered to satisfy an elective requirement. The course must be applicable to your degree and/or career. A short memo to the SOA Executive Committee describing the class, its relevance to the degree, and requesting approval is required. The petition should be submitted to 560 TNRB.
 - Course descriptions may be found in the course catalog on BYU's Website. When selecting a class, be sure the prerequisites have been met.
 - Bus M 400+ level classes must be approved through the Undergraduate Management Department (480 TNRB). If there is an MBA class that is equivalent, the MBA class must be taken (unless it is Spring or Summer Term).
 - If you have questions or need clarification, please check with the Academic Advisor in 560 TNRB.
