THE R'S
A MAP
FOR THAT.

ANTHROPOLOGY

Ever wonder how you can get more involved with your major and change the world at the same time? Use the guide on the back of this map to learn how to connect with and engage in social innovation in your own major.

FIELD OVERVIEW
An anthropology degree equips you with a unique knowledge of peoples and cultures that can inform and transform international development by understanding and prioritizing people.

MODEL IN THE FIELD
Arturo Escobar is a professor in the Department of Anthropology at the University of North Carolina at Chapel Hill. His research interests include political ecology, the anthropology of development, and social movements. He critically examines the current development discourse and practices searching for alternative and possibly more successful approaches that focus more on the people themselves. He argues for a more endogenous discourse for development rather than the current model of the industrialized world.
GET STARTED HERE ON CAMPUS

CLASSES
- IAS 220: Intro to International Development
- BusM 490R: Social Innovation—Do Good Better
- BusM 371R: Social Entrepreneurship Lecture
- ANTHR 247 Applied Anthropology
- ANTHR 309 Language, Culture, and Society
