There's a Map for That.

Education

Ever wonder how you can get more involved with your major and change the world at the same time? Use the guide on the back of this map to learn how to connect with and engage in social innovation in your own major.

Field Overview
Quality education remains one of the most crucial tools in overcoming personal and national poverty in the United States and abroad.

Model in the Field

Bernard Babiluno is from the DR Congo where he and Emmaneul Mufia founded the non-profit organization Sowers of Hope. Following the Rwandan Genocide, their village was turned into a refugee camp wrought with spillover violence from the war that left many children orphaned. Bernard and Emmanuel decided to create Sowers of Hope to care for these orphans. After ten years, the school is still successfully running. Sowers of Hope has helped establish local businesses in the Congo to keep the school funded by teaching vocational skills to students and subsidizing schools expenses and teachers' salaries.
