THERE'S A MAP FOR THAT.

PUBLIC HEALTH

Ever wonder how you can get more involved with your major and change the world at the same time? Use the guide on the back of this map to learn how to connect with and engage in social innovation in your own major.

FIELD OVERVIEW
From inventing and marketing incubators for developing countries to implementing clinic-based methods for HIV/AIDS treatment, public health specialists are changing the way we solve our biggest social problems.

MODEL IN THE FIELD
While Victoria Hale worked for the FDA in the 90s, she observed that many promising new medicines were abandoned despite the powerful potential they had to counter global infectious diseases. She questioned why highly developed countries had access to all kinds of medicines while in other parts of the world babies die of dehydrating diarrhea. Shortly after, she founded One World Health and Medicines360 to close the gap between urgently needed medicine and pharmaceutical opportunities. These organizations focus on health inequity issues of women and children, such as contraception and orphan diseases. They have dramatically improved global health, developing affordable medicines for black fever, diarrheal diseases, and other diseases affecting the developing world.

GET STARTED HERE ON CAMPUS

CLASSES
- BUS M 371R: Social Entrepreneurship
- Lecture Series
- BUS M 490R: Social Innovation—Do Good Better
- HILTH 310: Chronic Diseases
- HILTH 311: Infectious Diseases
- HILTH 322: Environmental Health
- HILTH 345: Principles of Epidemiology
- HILTH 436: Sexuality Education in the Curriculum
- HILTH 480: International Health
- HILTH 403R: Refugee and Migrant Health
- ANTHR 434: Medical Anthropology
- SOC W 585 Global Issues of Children At Risk*

ORGANIZATIONS
- Ballard Center for Economic Self Reliance
- SID (Students for International Development)
- PEAT (Project Evaluation and Assessment Team)
- Students for Systems Thinking in Health
  (healthsystemsstewards.wordpress.com)
- Amnesty International

INTERNSHIPS AND EXPERIENCES

INTERNSHIPS
- SIP (Social Innovation Projects on-campus internships)
- Research Assistantship
- Field Study (kennedy.byu.edu)
- Help International
- PEDL (Political Econ & Development Lab)
- Work with an Ashoka Fellow
- Government Agencies (Millennium Challenge Corporation, USAID, Social Innovation Fund)
- International Governmental Organizations (World Bank, UNDP, WHO)
- Nonprofits (Strive Partnership, Urban Institute, REDF)
- Master’s of Public Health (BYU)
- MBA
- MPA International Development (Harvard, Princeton)
- Master’s of International Development (Columbia)

OTHER RESOURCES

PROFESSORS
- Chad Swanson, Professor of Health Science
  (Founded of Students for Systems Thinking in Health group, improving local capacity in low-income countries, swancitos@gmail.com)
- Benjamin Crookston (undernutrition, growth recovery, infectious disease epidemiology, and child health and development)
- Brad L. Neiger (Evaluation of social marketing and social media interventions in public health settings)
- Joshua H. West (Research focused on eliminating health disparities, especially in the Latino community)
- P. Cougar Hall, Health Science (effective health education practices, the sexualization of girls and women, and social norm approaches in health education)
- Stephanie Fugal, Health Sciences (career placement coordinator, research in perception planning, breastfeeding, perinatal care/pregnancy, and female cancer)
- Brianna Magnusson, Health Science (reproductive health, unintended pregnancy, and racial disparities)
